4. FIRST-AID MEASURES

First Aid Measures

Eye Contact	Remove contact lenses if possible. Immediately flush eyes with plenty of water for at least 20 minutes while tilting head to avoid contamination of the unaffected eye. Forcibly hold eyelids apart to ensure complete irrigation of eye tissue. Seek medical attention immediately. Do not use drops, oils or ointments unless directed to do so by medical personnel.
Skin Contact	Immediately remove contaminated clothing and shoes. Flush skin with plenty of water for a continuous 15 minutes. Do not apply oils or ointments unless directed by medical personnel. Do not reuse clothing and shoes unless decontaminated if not decontaminated, discard clothing and shoes. Seek medical attention immediately.
Inhalation	Remove victim to fresh air. Give artificial respiration, only if breathing has stopped preferably by mouth-to-mouth, administered by trained personnel. WARNING: It may be hazardous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectious or corrosive. If breathing is difficult, give oxygen and seek medical attention immediately. Keep victim warm and at rest.
Ingestion	Wash mouth out with water provided the person is fully conscious. WARNING: never give anything by mouth to an unconscious person. Move victim to fresh air. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, lean the victim forward and keep head below hips to prevent breathing in vomitus and aspiration of liquid into the lungs. Keep airway clear and give more water. Seek medical attention immediately. If victim is not breathing and convulsing take to hospital immediately.
